

Establishment of a Joint Venture ‘ThinkTron Limited’ in Taiwan
— Launched the smart solution service in Asian market —

As ICT and AI (artificial intelligence) are leading the technology trend, Japan Asia Group Limited (JAG) and its subsidiary Kokusai Kogyo Co. Ltd. (KKC) — with the aim to build *Green Communities* on a global scale, have established a joint venture ‘ThinkTron Limited’ (TTL) with Taiwan’s leading engineering firm, Sinotech Engineering Consultants, INC. (Sinotech).

‘Smart × Green’ will be the guideline for the new joint venture. While pursuing an innovative business model in the new field, TTL will focus on five key areas including smart disaster risk management, smart transportation, smart energy, smart water management and i-construction.

JAG Group has been leading the way towards *Green Communities* in Japan — developed country facing challenges such as climate change, aging society, and labor shortage. Now we aim to dedicate pioneering ways in Asia with our core business and technology, as those countries are likely to confront similar challenges in the close future. TTL will play an important role in providing cutting edge technology with innovative business model, by utilizing the latest technology such as AI, IoT, and ICT to solve social challenges.

Today, May 21st, TTL’s unveiling ceremony will be hold, and TTL will launch its service from June 1st, 2018. On June 27th, TTL will hold a briefing to introduce the TTL vision. (Place: Taipei City PALAIS de CHINE HOTEL, 5F)
