MoU for collaboration signed with Certeza Infosys Corporation, Philippines

With the aim to create Green Communities on a global scale, Japan Asia Group Limited (Japan Asia Group)'s subsidiary Kokusai Kogyo Co. Ltd. (Kokusai Kogyo) has signed a Memorandum of Understanding (MoU) with Certeza Infosys Corporation (Certeza; Headquarters: Manila, Philippines; CEO: Raul Roberto E. De Guzman) for collaboration in the areas of geospatial information technology, disaster risk management and disaster risk reduction, and infrastructure management.

In the Philippines, multiple large infrastructure projects are underway towards sustainable community development. There is rising and urgent need for, for example, tools that increase both safety and efficiency in construction management, systems to manage public infrastructure assets, and systems that increase the resilience of these public assets from flood, earthquakes and other disaster risk.

Certeza has long led the geospatial information industry in the Philippines with its strong geospatial information services, including airborne survey, map creation, geospatial data analysis. Kokusai Kogyo brings its core geospatial information services and technologies, extensive track record in disaster risk management and disaster risk reduction, and unique infrastructure management know-how to this collaboration, with the aim to make these innovative technological solutions available to the Philippines.

With this collaboration between Kokusai Kogyo and Certeza, in addition to other local partnerships established in other parts of Southeast Asia, Japan Asia Group accelerates its delivery of innovative solutions for sustainable development around the world.
